

Too Good To Be True?

See What The Experts Say

"...I found that it has a unique ability to regulate & maintain proper internal hoof moisture levels. In wet conditions it prevents external moisture from entering the hoof and in dry conditions it prevents natural moisture from exiting... DuraCornum promotes proper hoof care to the benefit of the horse by supplementing the Periople shield (natural moisture repellent) to assist in preventing natural moisture leaving the hoof..."

Michael T. Savoldi

Farrier, Educator & Lecturer

*Retired Farrier Science Instructor Animal & Veterinary Science California State Polytechnic University
Retired Instructor in Farrier Science and University Blacksmith at the W.K. Kellogg Arabian Horse Center*

"...I have used this product on several of the thoroughbred mares at the Kentucky Division of Coolmore Stud... DuraCornum has greatly helped maintain tough, resilient soles and walls even during the wet and muddy months of the year. This product is a tremendous aid in the maintaining of strong healthy feet..."

R.F. "Ric" Redden

DVM, Farrier & Educator

Inducted into the International Equine Veterinarians Hall of Fame (1988)

"I have been very happy with the DuraCornum Moisture System. We have used it on a variety of different feet and in my opinion the product has performed well in preserving these feet. Minnesota has a harsh environment which can challenge horses' feet but this is an excellent product to combat that."

Tracy A. Turner

DVM, MS, Dipl.ACVS

Inducted into the International Equine Veterinarians Hall of Fame (2004)

Benefits & Features

Protects

Superior Protection for the Hoof Wall, Sole, Bulb, Buttress & Frog

DuraCornum is your year-round, single-product solution!

DURACORNUM Is Complete Hoof Care

DuraCornum (*Latin for "Durable Hoof"*) is unlike any topical hoof treatment available today. Developed to provide your horse's hooves with **total wet/dry-cycle protection**, DuraCornum allows you to fight against hoof softening, support proper internal moisture balance, repel foreign contamination and strengthen hooves — no matter what environmental condition.

DuraCornum is the result of a multi-year R&D process and is a uniquely advanced formula with performance you can count on.

Applies & Dries In Seconds!

Save Time! Save Money!

- One Product
- One Application Per Week
- One & a 1/2 Dollars a Day
- One Complete Solution

4-Tiers of DURACORNUM For All Environments

External Moisture Absorption Shield (For Wet Environments)

- Hydrophobic barrier weatherproofs complete hoof
- Shields against soft, spongy, wet, waterlogged hooves
- Reduces micro-crack pathogen entry points
- Sealing aid against abscesses, infection, thrush, seedy toe

Internal Moisture Balance (For Dry Environments)

- Breathable protective system
- Fights flaky, cracked, dry, brittle hooves
- Improves exfoliation
