**GEL PAL - spec-sheet**

Description: **Cushion material**

Designed by: **Fabrice Covelli**

Summary:

**Gel Pal is an innovative padding material designed to relieve joint pressure and provide body support. Made solely from Platinum base Silicone with 3 distinct layers (outer skin, gel, back), Gel Pal feels soft like human skin, and offers incomparable comfort, long lasting quality and a wide range of design capabilities.**

**The outer skin of Gel Pal is thick and resilient yet elastic and tear resistant. For superior strength, a stretchy fabric may be embedded in the skin to make it puncture resistant, which also serves as element of design. The silicone materials used are water clear and can be independently colored.**

**Gel Pal's versatile design material can be used in a variety of cushioning applications.**

Material: **100% Platinum Base Silicone**

Applications: **cushion, arm/head rest, toy, bag...**

Customization:

**Overall shape and colors may be customized. Max. size: 36" x 36"**

**No minimum order.**

Tests/Examinations: **UV stable, heat and fire resistant, skin safe, waterproof, tearproof and remains soft when frozen.**

Pricing:

**custom made only: (please provide specs for pricing)**

**Sample: \$30**
