PAST PERFORMANCE:

BURROW GLOBAL 2015 - ENERGY CORP

From consulting to execution, we were contracted to create 4 corporate videos outlining the major divisions of the company. Each video was filmed with optimal quality for true emotion to represent 40 years in business. We traveled to Burrow Global's location for 2 days of filming and provided a next day preview sample image sheet of the footage.

Was able to give the CEO an additional month to prepare his script.

Filmed using RED DRAGON CAMERA

CHAPPIE 2015 FEATURE FILM

Traveled to Vancouver, Canada for 10 months doing post-production visual effects on the film.

Duties include removal of live characters, debris, explosive charges, cleaning fire, smoke, clouds and breaking glass to preserve the practical effects.

Worked on the most difficult shots with a day to a week turn-around on most scenes.

Used NUKEX VFX PROGRAM

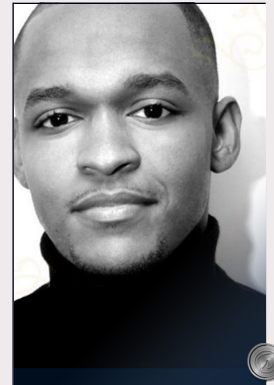

ICON ERA 2014 - PHOTO SERIES

Part of a yearly photoshoot series where we rent out a location, coordinate with 3-4 hair and makeup artist and allow anyone the ability to re-live an era in time.

Over 30 customers signed on. Each customer's look was designed by Ieko Media and a style sheet was given to the stylist to mimic.

Each person received professionally edited photos displaying them in time.

PRODUCTION EXPERIENCE

Ieko Media, headed up by Jamiel Boling, has 13 years of photography and lighting for film experience. Has worked on 10 multi-million dollar feature films. Ieko Media owns 90% of the equipment used so we are always ready when called.

We are the only studio in the Houston area that offers post-production visual effects at feature film level quality to our clients.

We understand that quality should not be compromised, so we shoot everything on the RED Dragon Camera and we are 1 of few studios in Houston that own one and is looking to add-on.

PERFORMANCE

Ieko Media has set the bar on all fronts from professional film and video to 95% accuracy photography rating. This means 95% of what we shoot is usable for the customer. We make sure that every shot counts, and composition, color, lighting, and staging are all considered before a single shot is taken. Our clients often walk away purchasing 400% more image and video rights over our competitors.

PROGRAMS

Ieko Media has a new program that allows individuals and companies to donate film equipment to the company. Excess equipment allows us to hold photography workshops for kids and carry out photoshoots for kids dealing with life threatening conditions at no cost.

IEKO MEDIA IS A MILITARY VETERAN OWNED, GHBCC MEMBER AND BBB ACCREDITED COMPANY SPECIALIZING IN
